

Verolanuova, 30/04/2021

Subject: adaptation to **REACH** (European Regulation about Registration, Evaluation and Authorization of Chemicals).

Roditor & Philadelphia is a formulator of preparations (marketed as solid or liquid "polishing compounds") and producer of items (buffs, wheels and rolls of cloth), sold and used for surface treatment and finishing of metals and other material.

The REACH Regulation (No. 1907/2006) concerning the Registration, Evaluation and Authorization of Chemicals is FULLY **entered into force on 1st June 2008**.

In accordance with the provisions of REACH, those who produce or import from non-EU countries a substance on its own or in a preparation, in quantity of 1 ton. per year or more is required to "register" at the European Chemical Agency.

With reference to the provisions of the REACH Regulation, we hereby inform you that we are providing a careful and continuous monitoring of our suppliers to ensure full adaptation to this law.

Our company, in fact, does not produce or import chemicals (as such or in preparations or in articles), however, as **downstream user** of substances, we have interest and need to get such information from our suppliers. On the basis of information received from them, safety data sheets are constantly updated.

Safety data sheets are arranged and are available whenever required by customers.
